Notes to the financial statements

As at June 30, 2018

1. General

(LF) (“the Fund”) is an open-ended investment fund which has been created on May 1, 2006 as a mutual investment fund (“Fonds Commun de Placement”) organised under Part I of the Luxembourg Law of December 17, 2010, as amended, relating to undertakings for collective investment (the “2010 Law” amended by UCITS V).

The Fund is managed by Eurobank Fund Management Company (Luxembourg) S.A. (the “Management Company”), a company incorporated under the laws of Luxembourg and having its registered office in Luxembourg.

The Management Company may issue units in several classes (collectively “Classes” and each a “Class”) in each Sub-Fund having: (i) a specific sales and redemption charge structure and/or (ii) a specific management or advisory fee structure and/or (iii) different distribution, Unitholder servicing or other fees and/or (iv) different types of targeted investors or distribution channels and/or (v) a different hedging structure and/or (vi) such other features as may be determined by the Management Company from time to time.

As at June 30, 2018, 21 sub-funds are active. The active classes of units are as follows:

Sub-Funds - Classes of Units	Launched Date
(LF) Equity - Global Equities Fund - Eurobank	18/09/2006

(LF) Special Purpose Best Performers V Fund	EUR
(LF) Special Purpose Best Performers VI Fund	EUR

Notes to the financial statements

As at June 30, 2018 (continued)

2. Summary of significant accounting policies (continued)

a) Basis of presentation of the financial statements (continued)

The combined financial statements of the Fund reflecting the assets and liabilities of all portfolios are expressed in Euro.

b) Security Valuation

Securities quoted or dealt in on any stock exchange or another regulated market are valued at the latest available price.

When such prices are not representative of the fair value of the relevant securities and in the case of unquoted securities, the valuation is based on the respective reasonable foreseeable sales price as determined prudently and in good faith by the Board of Directors of the Management Company of the Fund.

Where practice allows, liquid assets, money market instruments and all other instruments such as those with interest rates adjusted at least annually based on market conditions, may be valued at nominal value plus any accrued interest or an amortized cost basis. If the method of valuation on an amortized cost basis is used, the portfolio holdings will be reviewed from time to time under the direction of the Board of Directors to determine whether a deviation exists between the net assets calculated using market quotations and that calculated on an amortized cost basis.

If a deviation exists which may result in a material dilution or other unfair result to Unitholders, appropriated corrective action will be taken including, if necessary, the calculation of the Net Asset Value by using available market quotations.

Investments in open-ended UCIs are valued on the basis of the last available NAV of the units or shares of such UCIs.

2. Summary of significant accounting policies (continued)

c) Foreign currency translation

The cost of investments and the transactions during the year/period, expressed in foreign currencies, are converted into the reporting currency of each Sub-Fund at the rate of exchange ruling at the time of the purchase or transaction.

The market value of investments and other assets and other liabilities, expressed in foreign currencies, are translated into the reporting currency of each Sub-Fund at end of period exchange rates. Exchange differences arising on foreign currency translation are taken to statements of operations of the Annual report. The combined statement is calculated at end of period exchange rates.

Notes to the financial statements

As at June 30, 2018 (continued)

2. Summary of significant accounting policies (continued)

c) Foreign currency translation (continued)

Closing exchange rates as at June 30, 2018 relating to EUR are:

1 AED	= 0.2340 EUR
1 BGN	= 0.5113 EUR
1 CHF	= 0.8644 EUR
1 CZK	= 0.0384 EUR
1 DKK	= 0.1342 EUR
1 EGP	= 0.0479 EUR
1 HUF	= 0.0030 EUR
1 GBP	= 1.1286 EUR
1 ISK	= 0.0081 EUR
1 JPY	= 0.0077 EUR
1 KWD	= 2.8305 EUR
1 MAD	= 0.0903 EUR
1 NOK	= 0.1051 EUR
1 OMR	= 2.2232 EUR
1 PLN	= 0.2287 EUR
1 QAR	= 0.2345 EUR
1 RON	= 0.2144 EUR
1 RSD	= 0.0085 EUR
1 TRY	= 0.1873 EUR
1 USD	= 0.8578 EUR

d) Interest and Dividend income

Interest income is recognised on an accrual basis, net of any irrecoverable withholding tax. Dividends are recorded on an ex-dividend basis, net of any irrecoverable withholding tax. Withholding taxes are however recorded on a dedicated expense account.

e) Formation expenses

Formation expenses are amortised on a straight line basis over a period of 5 years.

f) Forward foreign exchange contracts

Forward foreign exchange contracts are valued at the forward rate applicable at the date of the statement of net assets of each Sub-Fund for the remaining period until maturity. Realised gains/losses and change in unrealised appreciation/depreciation resulting there from are included in the statement of operations of the Annual report of each Sub-Fund under “Net realised gain/(loss) on forward foreign exchange contracts” and “Change in net unrealised appreciation/depreciation on forward foreign exchange contracts”.

Notes to the financial statements

As at June 30, 2018 (continued)

2. Summary of significant accounting policies (continued)

g) Valuation of option contracts

The value of options that are traded on stock exchange is based on the closing prices published by the stock exchange where the company has concluded the related contracts. The liquidation value of options that are not traded on stock exchange is determined according to the guidelines decided by the Board of Directors of the Management Company, following uniform criteria for each type of contract.

Purchased Options - Premiums paid by the Fund for purchased options are included in the statement of net assets as an investment. The option is adjusted daily to reflect the current market value of the option and the change is recorded as unrealised appreciation or depreciation. If the option is allowed to expire, the Fund will lose the entire premium it paid and record a realised loss for the premium amount.

Premiums paid for purchased options which are exercised or closed are added to the amounts paid or offset against the proceeds on the underlying investment transaction to determine the realised gain/loss or cost basis of the security.

Written Options - Premiums received by the Fund for written options are included in the statement of net assets. The amount of the liability is adjusted daily to reflect the current market value of the written option and the change in market value is recorded as unrealised appreciation or depreciation. Premiums received from written options that expire are treated as realised gains. The Fund records a realised gain or loss on written options based on whether the cost of the closing transaction exceeds the premium received. If a call option is exercised by the option buyer, the premium received by the Fund is added to the proceeds from the sale of the underlying security to the option buyer and compared to the cost of the closing transaction to determine whether there has been a realised gain or loss. If a put option is exercised by an option buyer, the premium received by the option seller reduces the cost basis of the purchased security.

The realised gains/(losses) and change in unrealised appreciation/depreciation on options are disclosed in the statement of operations and changes in net assets of the Annual report respectively under the headings “Net realised gain/(loss) on financial futures, options and swaps” and “Change in net unrealised appreciation/(depreciation) on financial futures, options and swaps.”

h) Valuation of financial futures contracts

Upon entering into a futures contract, the Fund is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account.

The value of futures contracts that are traded on stock exchange is based on the closing prices published by the stock exchange where the company has concluded the related contracts. The value of futures contracts that are not traded on stock exchange is determined according to the guidelines decided by the Board of Directors of the Management Company, following uniform criteria for each type of contract.

Notes to the financial statements

As at June 30, 2018 (continued)

2. Summary of significant accounting policies (continued)

h) Valuation of financial futures contracts (continued)

The unrealised appreciation/(depreciation) on future contracts is disclosed in the statement of net assets under “Unrealised gain/loss on financial futures”. Changes in the market value of open futures contracts are recorded as unrealised appreciation/(depreciation) in the statement of operations of the Annual report under “Change in net unrealised appreciation/(depreciation) on financial futures and options”. Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of operations of the Annual report under “Net realised gains/(losses) on financial futures and options”. Securities deposited as initial margin account are designated in the schedule of investments and cash deposited is recorded on the statement of net assets. A receivable and/or a payable to brokers for the daily variation margin is also recorded on the statement of net assets.

i) Valuation of swap contracts

Swap transactions will be consistently valued based on a calculation of the net present value of their expected cash flows. The swaps will be valued based on the valuation elements laid down in the contracts and is obtained on a daily basis from the swap counterparty/ies based on the following method:

- Valuations are based upon observable data whenever directly available in the market or based upon model prices whenever data are non-directly observable in the market. As soon as every observable data (market closes) and non-directly observable (like implied volatilities & correlations) are collected, a pricing software starts computing the option prices of the swaps. Monte Carlo (number of drawings may vary from 1000 to 10000/20000 depending on the model's convergence rate), Closed Form or Finite Difference methods/models are used for assessing optional pay-offs depending on the options' complexity;
- Once the options are valued, the remaining data for computing the swaps Mark-To-Market, i.e. interest rate curves, etc. are collected and used to calculate the value of the swaps;
- The models and parameters used for the valuation are audited and validated by the swap counterparty's risk management departments, which operate independently from the front office. The final valuations of the swaps are reviewed and validated by the Risk Management department of Eurobank Asset Management Mutual Funds Management Company S.A.

Notes to the financial statements

2. Summary of significant accounting policies (continued)

i) Valuation of swap contracts (continued)

Valuations provided by the swap counterparty/ies are compared with independent sources (Independent Broker quotes and/or Risk Management of Eurobank Asset Management Mutual Funds Management Company S.A.) according to the policies established in good faith by the Board of Directors.

The unrealised appreciation/(depreciation) is disclosed in the statement of net assets under “Financial derivative instruments: options, swaps and forward foreign exchange contracts”. Realised gains/(losses) and changes in unrealised appreciation/(depreciation) as a result thereof are included in the statement of operations of the Annual report respectively under “Net realised gain/(loss) on financial futures, options and swaps” and “Net change in unrealised appreciation/(depreciation) on financial futures, options and swaps”.

j) Realised gains and losses on sales of investments in securities

Investments in securities are accounted for on a trade date basis. Realised gains and losses on sales of investments in securities are based on the average cost basis.

k) Money Market and Cash Sub-Funds: cash and time deposits

The following Sub-Funds invest their assets primarily in bank deposits and money market instruments accordingly with their investment objectives.

Notes to the financial statements

As at June 30, 2018 (continued)

3. Management fees and performance fees (continued)

The Management Company may further receive for certain Sub-Funds a performance fee as indicated in the relevant Appendices of the prospectus to the Sub-Funds concerned.

In (LF) Absolute Return Fund, a Performance Fee is calculated and accrued on each Valuation Day and paid on a quarterly basis, provided that the Net Asset Value per Unit before Performance Fee is higher than the Target Net Asset Value per Unit.

The Target Net Asset Value per Unit corresponds to the previous quarter end Net Asset Value per Unit multiplied by $(1 + \text{the Benchmark})$. The Benchmark is based on the calculated Weighted Average ECB rate +250bps, prevailing within the period (i.e. quarterly) and prorated over the period considered.

The Management Company will only be entitled to a Performance Fee if the quarter end Net Asset Value per Unit before Performance Fee is higher than any previous quarter end Net Asset Value per Unit on the basis of which a Performance Fee was paid (a “historical highest”).

The Performance Fee will be equal to 20% of the difference between the Net Asset Value per Unit before Performance Fee and the Target Net Asset Value per Unit multiplied by the average number of Units outstanding on each Valuation Day since the beginning of the quarter.

Payment of a Performance Fee may be due at the end of a quarter although the Benchmark has not been outperformed since last payment of a Performance Fee if (i) the quarter end Net Asset Value per Unit before Performance Fee outperforms the Benchmark over the quarter considered and (ii) the quarter end Net Asset Value per Unit corresponds to a “historical highest” as defined above.

In (LF) Total Return Fund, a Performance Fee is calculated from the beginning of each calendar year, accrued on each Valuation Day and paid on annual basis, at the end of each calendar year. The performance fee is paid provided that the Net Asset Value per Unit before performance is higher than the Target Net Asset Value per Unit.

The Target Net Asset Value per Unit corresponds to the previous calendar year end Net Asset Value per Unit multiplied by $(1 + \text{the hurdle rate})$.

The hurdle rate (benchmark) is set to a fixed 7%.

The Performance Fee will be equal to 20% of the difference between the Net Asset Value per Unit before Performance Fee and the Target Net Asset Value per Unit multiplied by the average number of Units outstanding on each Valuation Day since the beginning of the calendar year.

Notes to the financial statements

As at June 30, 2018 (continued)

3. Management fees and performance fees (continued)

For the period ended June 30, 2018 a performance fee of:

- EUR 1 478.71 was payable for the (LF) Absolute Return Fund - Eurobank I class
- Total EUR 1 478.71** for the (LF) Absolute Return Fund
- No performance fee was payable for the (LF) Total Return Fund - Prelium A
- No performance fee was payable for the (LF) Total Return Fund - Prelium B

The Management Company shall pay, out of the Management Fee the fees and expenses:

- the fees and expenses due to the investment manager and any appointed sub-investment manager
- the fees and expenses due to the distributors

4. Depositary fees

In consideration for its services, the Depositary is entitled to receive out of the assets of the relevant Sub-Fund a fee (the "Depositary Fee") payable at the end of each month in arrears at an annual rate not exceeding the percentage amount indicated in the Appendix of the Prospectus relevant to each Sub-Fund of the Prospectus of the Fund (up to 0.50% for all sub-funds excluding (LF) Absolute Return Fund (up to 0.20%) and (LF) Equity Middle East (0.55%)). This percentage amount will be calculated on a daily basis on the Net Asset Value of that day of the relevant Class over the period by reference to which the fee is calculated. The Depositary may also receive transaction-based fees.

5. Administrative fees

The Administrative Agent fee is payable at the end of each month in arrears at an annual rate not exceeding the percentage amount indicated in the Appendix relevant to each Sub-Fund (up to 0.10% p.a). This percentage amount will be calculated on a daily basis on the Net Asset Value of that day of the relevant Class over the period by reference to which the fee is calculated.

The Registrar Agent fee is a flat amount payable yearly and calculated on a prorata basis of the Net Asset Value of each sub-fund.

6. Taxation

The Fund is liable in Luxembourg to an annual tax (the "taxe d'abonnement") of 0.05%, calculated and payable quarterly, on the aggregate Net Asset Value of the outstanding units of the Fund at the end of each quarter. This annual tax is however reduced to 0.01% on the aggregate Net Asset Value of the units in the Classes reserved to institutional investors as well as in Sub-Funds that invest exclusively in certain short-term transferable debt securities and other instruments pursuant to the Grand-Ducal Regulation of April 14, 2004.
