The Fund adopts a moderately high risk profile at the start of the Investment period when the Target Date is still relatively distant. Subsequently and progressively, the Fund will be increasing its allocation to assets that have a lower risk as the Target Date approaches. On Target Date, the Fund is expected to be invested mainly in debt instruments and/or cash investments.

Glide Path for LCF Target Dated Fund Series

The Fund invests primarily in UCITS and/or UCI which invest in debt securities, equities, money market instruments, time deposits, cash, as well as in financial derivative instruments including Exchange Traded Funds (ETF). When the investment in UCITS and/or UCI is not considered appropriate, the Fund may be invested directly in underlying targeted assets. Emphasis is placed on international diversification of investments.

The Directors will decide before the Target Date, whether the Fund will be liquidated or contributed to another Fund or to another UCITS of the Management Company to the best interest of shareholders.
